

Multihoooping.

ENGLISH

Send the “partial designs” (1,2,3..) to your machine.

Use a **self-adhesive**, easy tear away embroidery stabilizer.

Cut a piece **for each partial design, not only a big one!!! Important..**

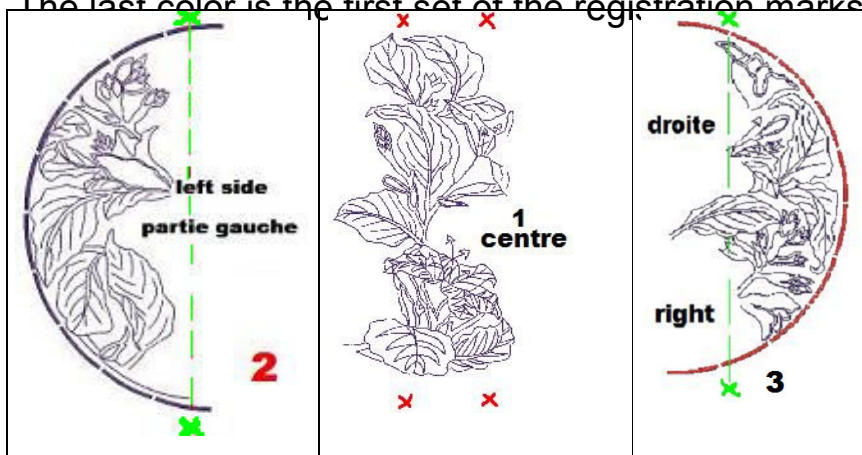

Press the stabilizer under the hoop.

Begin with the central piece (if you have 3 pieces) If you have only 2, begin where you want.

Press the fabric in place...to embroider the central design.

Embroider the first design.

The last color is the first set of the registration marks.

Take the material off the hoop. Don't loose this marks!!! Press the second piece of self-adhesive stabilizer under the hoop.

Open the second part of the design, on your machine.

Embroider the second mark on the STABILIZER only, not on the fabric.

Place pins into the 2 red marks on the left side of the center piece that is NOT in the hoop.

Place these 2 pins of the center piece in the marks sewn on the stabilizer

In the hoop. Press the fabric gently on the stabilizer.

Embroider the second part (left one)

Repeat the process with the right part.
